

International Symposium on Physics and Astronomy of Neutron Stars & Supernovae

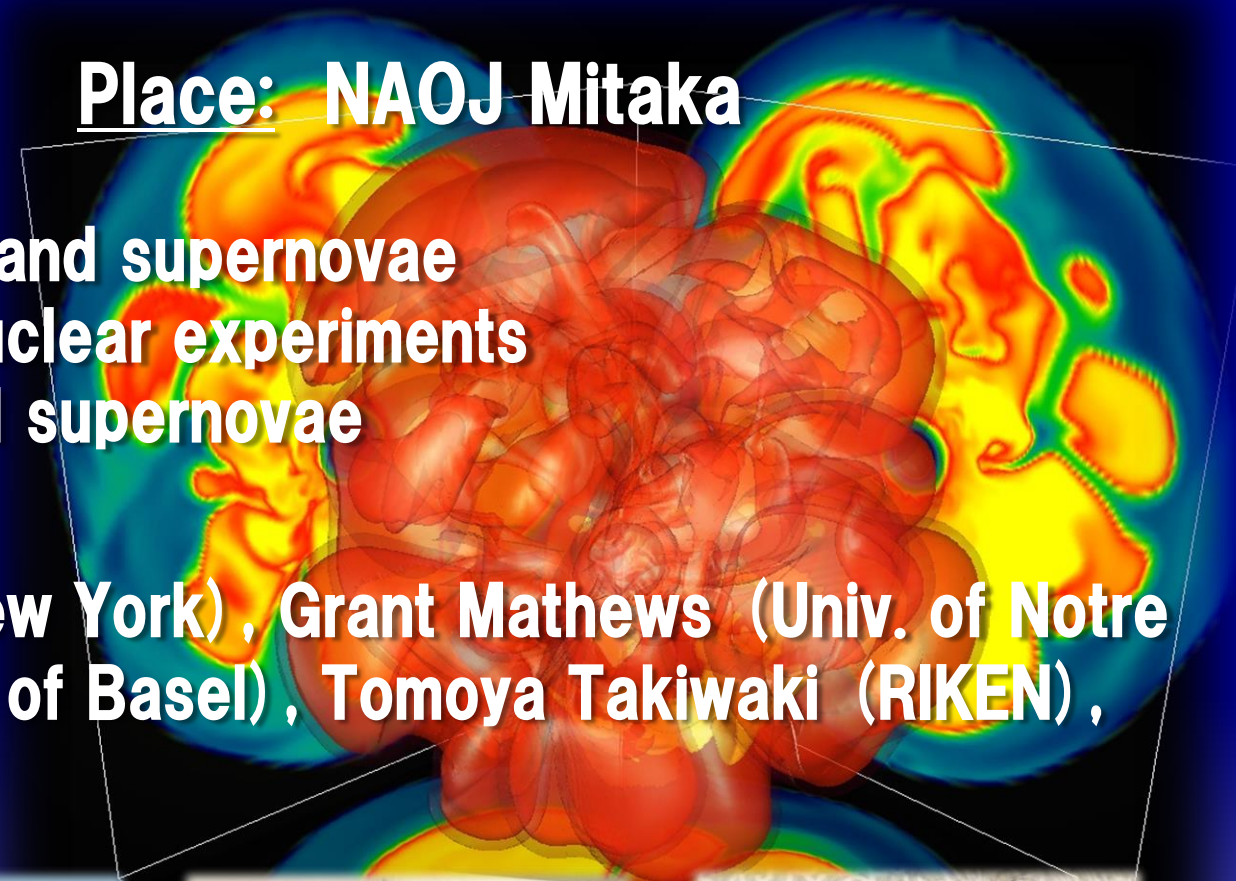

Date: 22–23, June 2015

Place: NAOJ Mitaka

Topics Cold & proto (hot) neutron stars and supernovae
EOS of high density matter and nuclear experiments
Observations of neutron stars and supernovae

Invited Speakers

James Lattimer (State Univ. of New York), Grant Mathews (Univ. of Notre Dame), Friedel Thielemann (Univ. of Basel), Tomoya Takiwaki (RIKEN), Hajime Sotani (NAOJ)

* This is an OMEG Institute Symposium.
* Hosted by NAOJ and grant-in-aid for scientific research on innovative areas “Neutron star matter.”
